

DOT SPORTS RADIAL

# Eagle RS

Goodyear's strong commitment to DOT sports car racing has culminated in the Eagle RS. Goodyear utilized its most advanced computer optimization tools, compounding technology, and laboratory facilities to develop this new product line. Each construction and compound has undergone extensive racetrack validation testing.

Built at Goodyear's Innovation Center in Akron, the Eagle RS is designed for competitors who strive to join the hundreds of race winners who benefit from the cutting edge performance of Goodyear race tires.

- DOT Approved
- Designed for Racetrack Usage
- Available in both Autocross (AC) and Road Course (RC) Tread Compounds
